Welcome to NPMF 23!

The 2023 Neonatal/Perinatal Medical Forum (NPMF) will be held from March 9th to March 11th in Bucharest, Romania. The congress continues the tradition of being a great academic occasion offering the latest advances in clinical care and research in Perinatology and Neonatology. We can meet each other in person and we shall be able to interact and discuss as much as possible as we were used before the COVID19 pandemic. In line with the tradition of the NPMF we will have leading experts in neonatal medicine from around the globe.

Welcome and enjoy the Congress!

Prof. Virgilio P. Carnielli MD PhD
International Chairman NPMF 23

Dear Colleagues and Friends,

Welcome to the Neonatal/Perinatal Medical Forum, in Romania, Bucharest - a memorable historical city. Starting from an objective reality in which each patient is unique and requires a particular approach - sometimes with decision-making difficulties, these meetings with professionals from different countries are welcome and necessary. Thanks to the eminent international speakers, I hope that we will leave Bucharest inspired by new ideas and even solutions to our problems and we will become better. It is only in our power!

Let's focus together on our profession, getting involved so that we can bring a ray of hope to those in need ...

Sincerely,

Assoc. Prof. Manuela Cucerea MD PhD
National Chairman NPMF 23

JOIN US! We will be glad to see you!
